Enel	SSE
Engie	Statkraft
Eni	Statoil
Eskom	Suez Environnement
Ferrovial	Total
Fortum	Unilever plc
Garanti Bank	Veolia
Gas Natural Fenosa	Visão Sustentável
Grupo Financiero Banorte	Zenith Bank
Hindustan Construction Company	
IDEAcarbon	

About the Business Leadership Criteria on Carbon Pricing

The UN Global Compact together with UNEP and UNFCCC secretariat and Caring for Climate partners – WRI, CDP, The Climate Group, UN Foundation and Principles for Responsible Investment – are calling on companies to commit to the Business Leadership Criteria on Carbon Pricing. The Business Leadership Criteria are aligned with limiting the increase in global mean temperature to 2° C above preindustrial levels. Consistent with the 2° C global target, companies are invited to indicate alignment with the following criteria:

- Set an internal carbon price high enough to materially affect investment decisions to drive down greenhouse gas emissions;
- Publicly advocate the importance of carbon pricing through policy mechanisms that take into account country specific economies and policy contexts; and
- Communicate on progress over time on the two criteria above in public corporate reports.
